# Teaching Notes

- \*Print the write the room cards.
- \*Laminate them for years of use!
- \*Place them around the room
- \*print 1-2 pages of the recording sheet per student.

(You can also put the recording sheets in the cool dry erase wipe off pockets so children can use them again and again).

\*Students go on a scavenger hunt to find the matching pictures and practice counting and writing teen numbers!

You can also print the write the room cards (multiple per sheet setting) to use for a matching game, or even go fish!
