- \* Great White Shark
- \* Blue Shark
- \* Hammerhead Shark
- \* Lemon Shark
- \* Lemon Shark
- \* Leopard Shark
- \* Nurse Shark
- \* Tiger Shark

### **Tiger Sharks**

Tiger sharks live in warm ocean waters. They are called tiger sharks because they have a striped pattern on them. The stripes help the sharks to camouflage, or blend in. Tiger sharks have very sharp teeth to help them hunt. They will eat almost any animal. They like to eat dolphins, seals, sea lions, and fish. They swim slowly until they see prey. Then they swim very quickly to catch the food. Tiger sharks do bite people, so they are dangerous to humans. They usually live alone, but sometimes tiger sharks will hunt in groups. Tiger sharks are beautiful, but aggressive creatures.
