FALL PHONICS COLOR BY CODE

Teaching Notes

Here are some great things to know while using these resources!

**Some of the colored 'answer key' pictures have slightly varied colors (see notes on those answer pages). This is because I have modified the coloring directions in some cases to allow for the number of colors in order to meet the needs of the skill.*

Here are some notes about the skills in each puzzle:

Color by Code 1 & 2 → These color by code pages focus on short vowel cvc practice. There are a few words with double final consonant (ill for example), but these are great for practicing CVC words.

Color by Code 3 → Short Vowel with some digraphs and blends.

Color by Code 4 → Beginning digraphs (th, sh, wh, ch)

Color by Code 5 → Beginning blends (st, tr, sl, fl, cl, cr)

Color by Code 6 → R Controlled Vowels

Color by Code 7 & 8 → Welded sounds

You will find these skills listed at the top of the pages.
