Add to 10 (teen numbers)

Roll & Subtract from 10

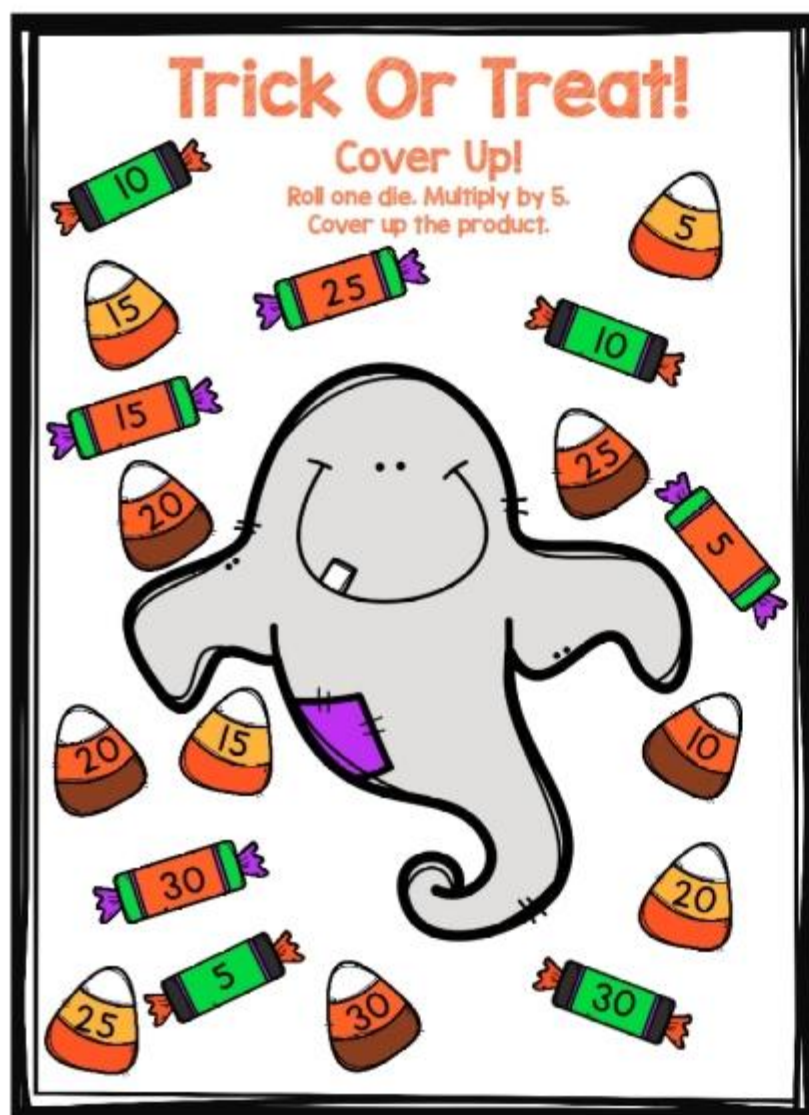

Differentiated Versions

Halloween

Roll & Cover Up

Multiply by 5

TEACHING NOTES

Halloween Cover Up!

Decide whether you'd like to use the addition, multiplication, or number version of the cover up game.

Students can play on their own with counters, or play with a partner by taking turns and using different colors (for example orange for one student and purple for another).

Differentiated Versions
