

SOLVE & WRITE THE ROOM

Add & Subtract Multiples of 10

Choose the version that meets the needs of your students! The different colored borders make for easier organization!

↻ Add and subtract 10 &
Add and subtract multiples
of 10 ↻

$$23+10$$

$$30-10$$

$$61+20$$

$$40-30$$

SOLVE & WRITE THE ROOM

Add & Subtract Multiples of 10

Hang the cards up around the room and have a math scavenger hunt, or use them like task cards!

$$57+10$$

$$60-10$$

$$3-20$$

$$0-30$$

Name: _____

Solve & Write the Room

Find the card with the matching picture.
Write the equation and solve.

SOLVE & WRITE THE ROOM

Add & Subtract Multiples of 10

Includes recording sheets and answer keys for both versions!

Name: _____

Solve & Write the Room
Find the card with the matching picture.
Write the equation and solve.

	_____		_____
	_____		_____
	_____		_____
	_____		_____
	_____		_____

Printable Prompts 2018

Answer Key-Pink Version
Solve & Write the Room
Find the card with the matching picture.
Write the equation and solve.

	$60 - 10 = 50$		$46 + 10 = 56$
	$78 + 10 = 88$		$57 + 10 = 67$
	$80 - 10 = 70$		$20 - 10 = 10$
	$40 - 10 = 30$		$23 + 10 = 33$
	$30 - 10 = 20$		$18 + 10 = 28$

Printable Prompts

Answer Key-Blue version
Solve & Write the Room
Find the card with the matching picture.
Write the equation and solve.

	$60 - 30 = 30$		$73 - 20 = 53$
	$20 + 60 = 80$		$32 + 50 = 82$
	$100 - 80 = 20$		$40 - 30 = 10$
	$70 - 30 = 40$		$26 + 30 = 56$
	$90 - 30 = 60$		$61 + 20 = 81$

SOLVE & WRITE THE ROOM

TEACHING NOTES

Print the card set that works best for your students! The pink set includes finding 10 more and 10 less than a 2 digit number (adding and subtracting 10). The second version (blue) involves adding and subtracting multiples of 10. To align with the standards, the addition problems ask students to add multiples of 10 to 2 digit numbers, and the subtraction problems involve subtracting multiples of 10 from multiples of 10 within 100.

The same recording sheet is used for both sets, so you could even differentiate by having students find different cards.

Using this resource:

There are a couple of ways to use this resource- and probably some I haven't thought of yet!

1. Print the cards and hang them around the room. Students then use clipboards and go on a sort of scavenger hunt to find the cards. Then they write the equation and solution next to the matching picture on their recording sheet. This is my favorite way to use the resource since the kids are up and moving!

2. Place the sets of cards at a center table. Students choose a card, write the equation and solve. Then they choose another card.

Sometimes when students have finished, since they finish at different times, I have them turn their paper over and draw a story problem to match one (or more) of the equations.
