

24 / 25 Monthly Homeschool Checklist Templates

Digital or Printable
Created with Google Sheets

Notes about this Planner

Your planner includes monthly checklist calendars for August 2024- July 2025.

You can go through the months by using the tabs at the bottom of the page.

When a month ends/ begins in the middle of a week, the weeks are kept together for planning purposes. This means some calendars do not begin on the 1st, but rather the first full week of that month,

Type into the check boxes to use digitally, or print and write in tasks.

Each weekday includes 5-6 check boxes. Weekends are left blank.

Using Your Planner

Type in each calendar day you have a task for your child. If you plan to print your checklists, do not adjust the column sizes. If you want to just use them digitally and want more room, you can adjust the formatting as you'd like.

You can include links as well! Just highlight text describing the link, right click and add a link. Then your child can click links to videos or other resources you might want them to access.

Save your copy.

Get a share link using file- Share and be sure to allow editing so your child can use the check marks. You can also add your child's email address to share in their drive.

Type in the blanks.

Check in on progress.

The Technical Stuff
